

The **IQ – Integration through Qualification** support program aims to improve the sustainable and educationally appropriate integration of adults with professional qualifications acquired abroad into the labor market.

IQ – Goals and implementation

- Support in the process of recognizing formal qualifications acquired abroad through counseling and qualification
- Identification and utilization of non-formal and informally acquired skills through skills assessment procedures
- Protection against exploitation and discrimination in employment relationships and overcoming any precarious employment conditions
- Attracting and retaining skilled workers by removing structural barriers and ensuring sustainable employment commensurate with their education
- Virtual development of counseling services and qualification measures (e.g., through social media counseling)

The “Recognition and Qualification Counseling Rhine-Ruhr” project is funded by the Federal Ministry of Labor and Social Affairs and the European Union through the European Social Fund Plus (ESF Plus) as part of the IQ – Integration through Qualification funding program and is administered by the Federal Office for Migration and Refugees. Partners in the implementation are the Federal Ministry of Education, Family, Seniors, Women, and Youth and the Federal Employment Agency.
